Other trail segments checked	Not recorded

1. Write one full topic sentence naming the place, the date and the kind of work. Do not use a date-only fragment.

2. Identify TWO precise verified facts from the log and give the number in each.

3. Revise the unsupported claim 'Every visitor felt safer afterward.' Write a factual replacement and a sentence explaining the missing evidence.

4. Write a FIVE-sentence report using the plan taught above. Make each sentence complete, include at least three exact numbers or times, and end with a meaningful evidence limit.

5. Proofread your report: underline the topic sentence, circle exact data, and in one or two sentences describe a change you made to improve accuracy.
