Three Maps, Three Questions

Emma | Geography | Saturday, November 14, 2026 | page 1/3

Tracking #: 2026-11-14-EMM-GEO-MAP-PURPOSE-47

Three fictional map descriptions of the same watershed

Map	Shows	Legend
A: Physical	River North and Hill Ridge	Blue line=river, triangle=hill
B: Political	Oak and Pine districts	Dashed line=district border
C: Thematic	October rain by district	Light=0-19, mid=20-39, dark=40+ mm
Not shown	Road closures or daily floods	None of these maps includes them

1. Choose the best map for each of THREE questions: river location, district border and October rain amount. Name A, B or C and explain why.

2. Using the given legends, draw and LABEL one blue river, one hill symbol and one district boundary. State which map type each belongs to.

Three Maps, Three Questions

Three fictional map descriptions of the same watershed

Map	Shows	Legend
A: Physical	River North and Hill Ridge	Blue line=river, triangle=hill
B: Political	Oak and Pine districts	Dashed line=district border
C: Thematic	October rain by district	Light=0-19, mid=20-39, dark=40+ mm
Not shown	Road closures or daily floods	None of these maps includes them

3. A neighbor mistakes Map B’s dashed border for a stream. Write TWO sentences explaining why the legend shows that is wrong.

4. Explain exactly what the dark shading in Map C can establish and why it cannot prove a street was flooded on a particular day.

Three Maps, Three Questions

Three fictional map descriptions of the same watershed

Map	Shows	Legend
A: Physical	River North and Hill Ridge	Blue line=river, triangle=hill
B: Political	Oak and Pine districts	Dashed line=district border
C: Thematic	October rain by district	Light=0-19, mid=20-39, dark=40+ mm
Not shown	Road closures or daily floods	None of these maps includes them

5. Write three different research questions that can each be answered by ONE map. Name its map and the specific legend feature you would use.

6. Write a five-sentence geographical briefing comparing the three map purposes, one safe fact from each and one important missing source.
