Animal Field Notes: Build Complete Facts

Tracking #: 2026-11-14-EMM-LA-FIELD-NOTES-47

Fictional wetland field observations for sentence-building practice

Animal	Observed detail	Recorded day
Heron	Stood beside pond	Saturday
Frogs	Three near reeds	Saturday
Turtle	Rested on a log	Sunday
Dragonflies	Five above water	Sunday

1. Turn the fragment 'Beside the pond on Saturday' into ONE complete sentence with the heron as subject. Underline the subject and circle the verb.

2. Write TWO different complete factual sentences about Saturday. Use exactly the animal, numbers, actions and day from the table; label sentence 1 and 2.

Tracking #: 2026-11-14-EMM-LA-FIELD-NOTES-47

Fictional wetland field observations for sentence-building practice

Animal	Observed detail	Recorded day
Heron	Stood beside pond	Saturday
Frogs	Three near reeds	Saturday
Turtle	Rested on a log	Sunday
Dragonflies	Five above water	Sunday

3. Correct this invented claim: 'The turtle climbed the log because it was scared of rain.' Write the exact supported fact and explain what is missing.

4. Build THREE complete Sunday sentences, each with a subject and verb. Two must use different animals; the third must compare Saturday and Sunday without guessing a cause.

Animal Field Notes: Build Complete Facts

Tracking #: 2026-11-14-EMM-LA-FIELD-NOTES-47

Fictional wetland field observations for sentence-building practice

Animal	Observed detail	Recorded day
Heron	Stood beside pond	Saturday
Frogs	Three near reeds	Saturday
Turtle	Rested on a log	Sunday
Dragonflies	Five above water	Sunday

5. A note says 'Five dragonflies above water on Sunday.' Mark the missing verb; rewrite it as a complete sentence WITHOUT changing the observed number or day.

6. Write a FOUR-sentence field report with an opening, two different exact observations and a closing limit. Number all four and highlight each subject and verb.
