Date Line Flip Cards: West Adds, East Subtracts

Tracking #: 2026-11-14-NAT-GEO-DATELINE-47

Simplified instant-crossing practice cards; dates are examples, NOT real flights

Arrow card	Date change	Example
WEST ->	ADD one day	Mon Nov 2 becomes Tue Nov 3
<- EAST	SUBTRACT one day	Thu Nov 5 becomes Wed Nov 4
Month boundary	Use actual month order	Nov 30 WEST -> Dec 1
Real route	Hours and time zones matter	Not modeled here

1. Draw TWO large arrow cards, one WEST and one EAST. Under each write the correct +1 or -1 rule and a one-sentence explanation.

2. Use the WEST card: Monday November 9 -> ?, and Friday November 13 -> ?. Give weekday and numerical date, not just ’tomorrow.’

Date Line Flip Cards: West Adds, East Subtracts

Tracking #: 2026-11-14-NAT-GEO-DATELINE-47

Simplified instant-crossing practice cards; dates are examples, NOT real flights

Arrow card	Date change	Example
WEST ->	ADD one day	Mon Nov 2 becomes Tue Nov 3
<- EAST	SUBTRACT one day	Thu Nov 5 becomes Wed Nov 4
Month boundary	Use actual month order	Nov 30 WEST -> Dec 1
Real route	Hours and time zones matter	Not modeled here

3. Use the EAST card: Wednesday November 11 -> ?, and Sunday November 15 -> ?. Give weekday, date and a labeled direction arrow.

4. A student writes 'westbound from Nov 30 means Nov 29.' Correct BOTH the direction rule and month-boundary date. Show the front and back of a flip card.

Date Line Flip Cards: West Adds, East Subtracts

Tracking #: 2026-11-14-NAT-GEO-DATELINE-47

Simplified instant-crossing practice cards; dates are examples, NOT real flights

Arrow card	Date change	Example
WEST ->	ADD one day	Mon Nov 2 becomes Tue Nov 3
<- EAST	SUBTRACT one day	Thu Nov 5 becomes Wed Nov 4
Month boundary	Use actual month order	Nov 30 WEST -> Dec 1
Real route	Hours and time zones matter	Not modeled here

5. Solve TWO boundary examples: December 31 WEST crosses into the next year; January 1 EAST returns to the previous year. Label the relevant year change explicitly.

6. Write a five-sentence travel-diary teaching note with one west crossing, one east crossing, a correct arrow explanation, a month example and one limitation for real flights.
