Museum Exhibit: Audit Three Claims

Tracking #: 2026-11-14-NAT-LA-MUSEUM-SOURCES-47

Three fictional museum records (practice, not real attendance figures)

Source	What is actually recorded
A: curator label	Exhibit planned to open ..
B: Sat ticket log	46 admission tickets sold
C: visitor card	One person wrote 'The ma..
Unrecorded	No complete attendee cen..

1. Classify A, B, and C by source type and write the ONE narrow question each can answer. Include the exact date or counted group.

2. Write three evidence-backed sentences, one per source, avoiding claims that opening, attendance or approval was universal.

Museum Exhibit: Audit Three Claims

Tracking #: 2026-11-14-NAT-LA-MUSEUM-SOURCES-47

Three fictional museum records (practice, not real attendance figures)

Source	What is actually recorded
A: curator label	Exhibit planned to open ..
B: Sat ticket log	46 admission tickets sold
C: visitor card	One person wrote 'The ma..
Unrecorded	No complete attendee cen..

3. Correct 'All visitors loved the exhibit because it opened on time.' Identify THREE distinct unsupported ideas and replace the sentence with two bounded facts.

4. Explain TWO reasons the 46-ticket total cannot prove every nearby visitor attended. Distinguish what could be true from what the data actually shows.

Museum Exhibit: Audit Three Claims

Tracking #: 2026-11-14-NAT-LA-MUSEUM-SOURCES-47

Three fictional museum records (practice, not real attendance figures)

Source	What is actually recorded
A: curator label	Exhibit planned to open ..
B: Sat ticket log	46 admission tickets sold
C: visitor card	One person wrote 'The ma..
Unrecorded	No complete attendee cen..

5. Write a possible counterinterpretation of Source C and a specific additional record needed to determine whether most ticket holders liked the exhibit.

6. Write a SIX-sentence exhibit review: introduction, one exact A fact, one B fact, one C fact, one explicit limit and one cautious closing conclusion.
