Two Markets: Compare Complete Receipts

Tracking #: 2026-11-12-NAT-MATH-TWO-MARKETS-45

Fictional stores - all tax 5% AFTER discounts

Store	Jacket original	Jacket discount	Scarf
Pine Market	$60.00	20%	$14.00
Lake Market	$54.00	10%	$12.00

1. Calculate Pine Market’s jacket discount and sale price with money labels.

2. Calculate Lake Market’s jacket discount and sale price, showing the percent as a decimal.

3. Find each market’s discounted basket subtotal (jacket plus scarf), and mark which subtotal is lower.

Two Markets: Compare Complete Receipts

Tracking #: 2026-11-12-NAT-MATH-TWO-MARKETS-45

Fictional stores - all tax 5% AFTER discounts

Store	Jacket original	Jacket discount	Scarf
Pine Market	$60.00	20%	$14.00
Lake Market	$54.00	10%	$12.00

4. For each market, calculate 5% sales tax on its subtotal and then compute the complete final receipt.

5. A family has $65. Which market is within the budget? Explain the difference between each final receipt and $65.
