Trail Cleanup: Count the Respondents, Limit the Claim

Tracking #: 2026-11-13-NAT-LA-TRAIL-SIGNUP-46

Three fictional neighborhood sources

Source	What this source actually reports
A, Tuesday flyer	Trail cleanup planned Saturday, Nov 21 at West Trail
B, Tuesday signup	14 people put names on a signup form
B, Saturday check-in	9 people checked in at the trail table
C, one volunteer	'I think this trail is easier to walk now.'
Not recorded	No reason for any absence and no resident-wide survey

1. Write one exact statement about Source A and one about Source B, naming when, where, and WHO was counted. Explain why a signup is not the same as a check-in.

2. Subtract the exact number of signups and check-ins. Write what the difference DOES and DOES NOT show about attendance. Give two possible explanations without claiming either happened.

Three fictional neighborhood sources

Source	What this source actually reports
A, Tuesday flyer	Trail cleanup planned Saturday, Nov 21 at West Trail
B, Tuesday signup	14 people put names on a signup form
B, Saturday check-in	9 people checked in at the trail table
C, one volunteer	'I think this trail is easier to walk now.'
Not recorded	No reason for any absence and no resident-wide survey

3. Correct this: 'Every resident attended and enjoyed the cleanup.' Cite A, B or C to justify each of TWO separate limitations.

4. Correct this: 'The flyer caused all fourteen people to clean the trail.' Name the unsupported population claim and the unsupported cause claim, and provide two safe replacements.

A, Tuesday flyer	Trail cleanup planned Saturday, Nov 21 at West Trail
B, Tuesday signup	14 people put names on a signup form
B, Saturday check-in	9 people checked in at the trail table
C, one volunteer	'I think this trail is easier to walk now.'
Not recorded	No reason for any absence and no resident-wide survey

5. Write an evidence table with four rows: claim, which source supports it, precise group/date, and what remains unknown. Fill in at least FOUR different claims.

6. Write SIX connected sentences: scheduled plan; signup count; check-in count; one opinion; number comparison; explicit limitation. Edit and label every source reference.
