Tracking #: 2026-11-11-NAT-MATH-MARKET-RECEIPT-44

Fictional market: 5% sales tax on prices AFTER discounts

Item	Original	Discount
Model kit	$48.00	25%
Sketchbook	$18.00	10%
Markers	$12.00	No discount

1. Find the model kit discount and discounted price. Show percent conversion, multiplication and subtraction.

2. Calculate the sketchbook savings and sale price. Identify which of your amounts is the original price.

3. Find the sale subtotal for all three listed items. Include the markers at their full price.

Market Receipt: Discounts, Tax and Budget

Tracking #: 2026-11-11-NAT-MATH-MARKET-RECEIPT-44

Fictional market: 5% sales tax on prices AFTER discounts

Item	Original	Discount
Model kit	$48.00	25%
Sketchbook	$18.00	10%
Markers	$12.00	No discount

4. Compute the 5% sales tax on the sale subtotal and the exact total due. Label all money amounts.

5. You have a $65 budget. Can you purchase all three items? Show the difference between the budget and total.
